- Development Coach

ABOUT ME

I've been climbing for 15 years and have worked in the industry for over 10 years.

Although you can often find me in a bouldering centre, my main passion in climbing involved being on the end of a rope.

I love to climb outdoors, and would have to pick the Jupiter crag in Leonidio as my garden of eden.

WHAT CAN I DO FOR YOU?

I specialise in improving climbing movement.

Encouraging climbers to ask difficult questions and challenge themselves, while guiding participants on a journey of self discovery is how I coach.

You can expect a lot of climbing drills and opportunities to explore movement mastery.
