ABOUT ME

I have been climbing for 4 years and working as a coach for 2 years.

Previous to my climbing journey I was a private music tutor for 7 years, and both teaching and learning new skills is such a huge passion of mine.

I'm a boulderer but enjoy being on a rope, and for me the great outdoors is where it's at!

WHAT CAN I DO FOR YOU?

I believe that a deep understanding of climbing technique and movement is of utmost importance to build a solid foundation that will take you far in your climbing.

I pride myself in teaching new skills tailored to the individual. With plenty of drills and different ways to explain and demonstrate technique, I love the challenge in finding a way that works for you.
